EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Keddie on 11/19/04.

The application has been amended as follows:

CLAIMS:

Claim 81, last line, after "altered phenotype", ----, wherein the enzymatic complex confers upon the cell an altered phenotype relative to a phenotype of the cell in the absence of said complex---- has been added.

Art Unit: 1639

REASONS FOR ALLOWANCE:

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest the claimed invention. The prior art, Khosla, teaches away from the claimed invention. The claimed invention requires enzymes joined to a scaffold using binding sequences [as stipulated by applicants at page 10 of the REMARKS (9/30/04)]. Also, one of skill in the art upon reading the instant patent application, would instantly understand the concept of the invention, and would thereby recognize that the inventors had possession of the invention. The disclosure therefore provides an adequate written description as stipulated by applicants at pages 7-9 of the REMARKS (9/30/04).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to T. D. Wessendorf whose telephone number is(571) 272-0812. The examiner can normally be reached on Flexitime.
